Biz,

1974 yılından bugüne edindiğimiz tecrübeyi, günümüzün teknolojisini de kullanarak aranan marka konumunu daha da güçlendirerek, sektöründe “takip eden değil”, “takip edilen” bir firma olarak gelişimimizi sürdürmekteyiz. Aynı düşünceden hareketle, değişimi, yenilenmeyi ve gelişimi bir kurum kültürü haline getirerek, firma içinde ve dışında ilişkide olduğumuz her noktada tecrübeli ekibimiz ile bu vizyonun uygulayıcısı ve koruyucusu olmaya çalışmaktayız.

21. Yüzyıl’ın dünyada yaptığı etkiler doğrultusunda ekonomik konjonktürün ve bilgi teknolojilerinin sürekli farklılaşmasına rağmen bizler, oluşturduğumuz sağlam politikalar sayesinde esnek, atak ve rekabetçi yapımızı her geçen gün daha da dayanıklı hale getirmekteyiz.

Bu bağlamda; yapılacak teknoloji yatırımlarından müşteri taleplerine, pazarlama hedeflerinden ülke inceleme çalışmalarına, Ar-Ge yatırımlarından sevkiyata kadar bütün süreçler uyum içerisinde ilerlemektedir.

About Us,

Cayirova Trailer Parts MFG.Co. is a leading manufacturer and exporting company that deals with high quality trailer parts and components from Turkey since 1974. The Cayirova Co. with its versatile production programme dedicates itself to meet the needs of domestic and international markets, by providing high-end technologies and functional solutions. The continuous change and development of our products all form part of our corporate identity.

In the 21st century our priorities lay within our quality management systems in which the principles are to provide our customer’s with improved partnerships to serve inside the spirit of teamwork. Continuous communication between the organisation and its customers allows for a constant flow of information, which in turn allows for constant product development and customer service.

With customer satisfaction being the primary objective it is crucial that all activities and investments in production, marketing, domestic and international marketing surveying, research and development activities and logistics are at harmony within the Cayirova Co.

60000 m² ÜZERİNE KURULU ÜRETİM TESİSİ
Manufacturing Facility Built on 60000 m² Land

bizim için kalite bir soru değil “cevaptır...”

Tasarım, Üretim ve Planlama Design, Production and Planning

Çayirova Otomotiv Konya 3. OSB’de üretim faaliyetlerini sürdürmekte, teknolojik gelişmeler doğrultusunda yatırımlarında hız kesmeyerek kalite çitasını daha üst seviyelere taşımaktadır. Aynı zamanda kontrol edilebilir kalite standartlarımızın bir gereği olarak galvaniz, boya, preshane, torna, plazma, kaynak gibi üretim sürecimizdeki önemli birimler de firma bünyesinde yer almaktadır.

Çayirova MFG.Co. has its modern production facility located in the 3rd industrial area in Konya. Çayirova follows the latest innovations in technology and invests accordingly. This can be seen in all aspects of the facility from the machinery in the factory to the quality control systems.

Production departments such as Galvanizing, Painting, Pressing, Turning Lathes, Plasma Cutting and Welding are all located in the main production facility in order to control and trace all aspects of all products.

Lojistik Logistics

Çayirova Otomotiv römork, hafif römork, tarım makineleri, treyler, karoser, karavan ve askeri araçlara yönelik ürettiği dingil, jant, döner tabla, porya, lastik, hidrolik lift, makas, kriko gibi 1700 çeşit yedek parça ve ekipmanı Konya Organize Sanayi Bölgesindeki sevkiyat deposunda sorunsuz bir stok planı ile satışa hazır halde bekletmekte ve gelen taleplere ise firma bünyesindeki yurt içi dağıtım filosu sayesinde “anında sevk edebilme kabiliyeti” ile hızlı bir şekilde cevap vermektedir.

Çayirova MFG.Co. is able to promptly deliver standard products such as Axles, Lifts, Turntables, Rims, Tyres, Hubs, Springs, Jacks and more than 1700 different spare parts to its customers located within the domestic region with its express delivery service from our warehouses. International customers are serviced by a competent team of logistics specialists at your disposal regardless of incoterm.

Satış & Pazarlama Sales & Marketing

Satış ekibimiz sadece ürünlerimizi tanıtan kişiler değildir. Edindiğimiz ilkelere sadık bir şekilde firma içinde ve sahada koşturan aynalarımızdır. Biz onlarda müşterilerimizi, müşterilerimiz ise Çayirova Otomotiv'i görürler. En büyük satış hedefimiz müşterimizin tebessüm eden yüzünü görmektir. Yurtdışı ilişkiler de Çayirova Otomotiv hedeflerinde önemli bir yere sahiptir. Bu misyonun bir gereği olarak yurt içinde ve yurtdışında sektörün kalbinin attığı fuarlar sürekli takip edilmekte ve kurumsal katılım sağlanmaktadır. Ayrıca yurtdışı ilişkiler; firma'nın değişim, yenilenme ve gelişim felsefesi ışığında farklı ülkelerdeki, özellikle Avrupa'daki yenilikleri kendi bünyesine katabilme, müşterilerine Avrupa kalitesinde ürünleri sunabilme amacı ile de günbegün kalıcı hale getirilmektedir.

Our sales team are not only individuals who promote and represent our products but are our reflections, which represent our norms and principles. We see our customers through them and our customers see Cayirova MFG.Co. through our sales team. Our biggest sales goal is to satisfy our customer's needs. Foreign relationships have a big importance in Cayirova MFG. Co. goals. We closely follow the international exhibitions all around the globe and participate in order to reach out to every part of the world with our products and services.

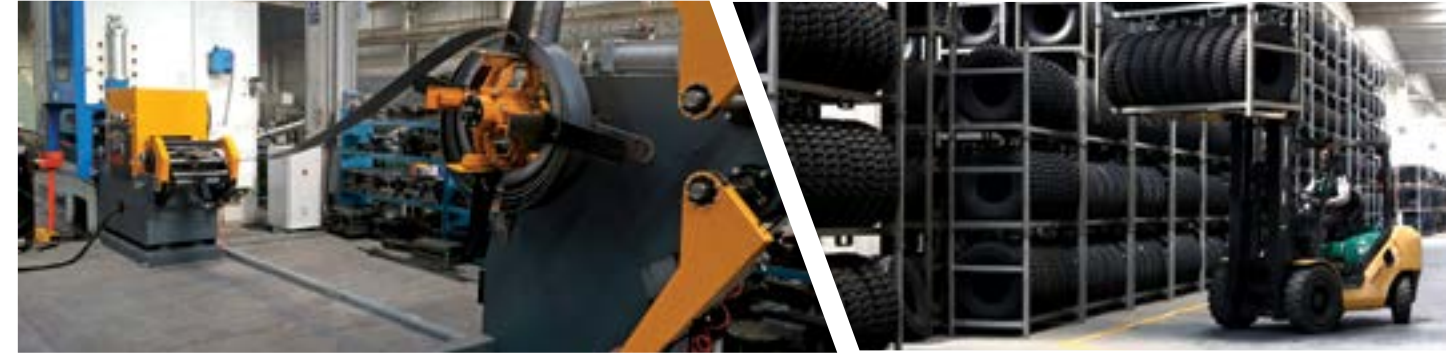

Kalite Yönetimi Quality Management

Kalitenin devamlı olması gerektiği ve istikrarı zorunlu kıldığı doğrusuna her zaman sadık kalan Çayirova Otomotiv, gerekli olan tüm kalite belgelerine sahip olmanın yanında, ürettiği römork ve treyler ekipmanlarının test belgelerini de alarak, dünya ülkelerine ihracat yapma hedefini gerçekleştirmiştir.

"Constant Quality" is our motto and automation plays an essential role if this is to be achieved. Cayirova MFG.Co. ensures that all the necessary quality control certificates in place from the raw materials to the finished products, all tests are conducted internally and are accordance to international accredited test facilities.

Çayirova Otomotiv teknolojik gelişmeler doğrultusunda yatırımda hız kesmeyerek kalite çitasını daha üst seviyelere taşımaktadır. Talaşlı imalat bölümünde bulunan CNC tezgâhlarına belirli periyotlarda yenileri eklenmekte ve kapasite sürekli artırılmaktadır. Aynı zamanda kontrol edilebilir kalite standartlarımızın bir gereği olarak galvaniz, boya, preshane, torna, plazma, kaynak gibi üretim sürecimizdeki önemli birimler de firma bünyesinde yer almaktadır.

Cayirova MFG.Co., has experienced rapid expansion and development due to its application of modern production techniques. Our company has been structured into production units such as; galvanising, painting, pressing, turning lathes, plasma cutting and welding. Our production capacity is continuously increasing with the introduction of new CNC machines.

Frenli ve Frensiz Dingiller Ara Hammadde Alternatifleri

Alternative Materials for Braked and Un-Braked Axle

Square Kare	Profile Profil	Tube Boru	Welded Square Profile Kapama
50 mm $\varnothing$	70 mm $\square$ - 6 mm	89 mm $\varnothing$	—
60 mm $\varnothing$	80 mm $\square$ - 8 mm	116 mm $\varnothing$	—
65 mm $\varnothing$	90 mm $\square$ - 8 mm	116 mm $\varnothing$	—
70 mm $\varnothing$	90 mm $\square$ - 8 mm	—	—
80 mm $\varnothing$	100 mm $\square$ - 10 mm	—	—
90 mm $\varnothing$	100 mm $\square$ - 10 mm	127 mm $\varnothing$	110 mm $\square$
100 mm $\varnothing$	—	—	120 mm $\square$

Frenli ve frensiz dingiller, montajlı kampana ve porçaların fiyatları belirtilen standart iz boyları için geçerlidir. Farklı iz boyu talepleri fiyatlarda değişiklik gerektirebilir.

Dingil kapasiteleri iz boyuna, bağlantı merkezine ve kullanılan lastik türüne göre değişiklik gösterebilir.
The capacity of the axles depend on track, spring centers and wheels used.

Atalet Fren Sistemi / Overrun Brake System

- Tek ve tandem dingilli tarım römorklarında kullanılır.
- Bu çeki özel frenli dingillere bağlanmak için kullanılır.
- Çeki sistemi 100 mm standart hareket sağlamaktadır.
- Arka plakalı ve plakasız verilmektedir.
- Amortisörler tarafından desteklenmiştir.
- Hidrolik veya pnömatik uygulama gerektirmez.
- Eğimli arazilerde el freni görevi görür.
- Used in agricultural trailers with single or tandem axles.
- This drawer is used for connecting to axles with overrun brake function.
- The chest system provides a standard movement of 100 mm.
- Supplied with back plate and without plate.
- Supported by shock absorbers.
- Hydraulic or pneumatic application is not required.
- It serves as an handbrake in inclined terrains.

3 Yana Devirme Sistemi - Set
Yargılı / Yargısız
Three-way Dumping Kit - Set

115305

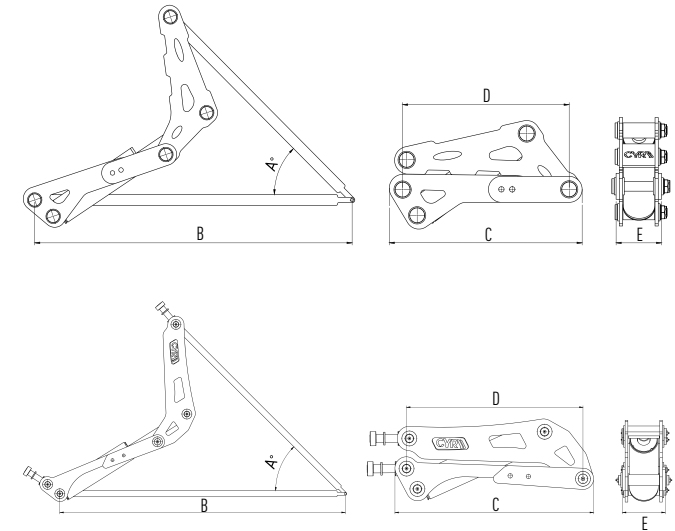

Target Lift Sistemi
Target Lift System

Target Liftin Avantajları :

- 1 - Hidrolik yağ gereksinimi az.
- 2 - Tek kademeden dolayı hızlı kalkış ve iniş.
- 3 - Kademeli şaşma yok.
- 4 - Tutukluluk yapmaz.
- 5 - Kalın borudan dolayı genişleme olmaz.
- 6 - Paslanmaz sert krom kaplı mil.
- 7 - Honlanmış H8 toleranslı boru.
- 8 - Sağlam ve güçlü tasarım.

Target - Compas lift advantages:

- 1 - The hydraulic oil requirement is low.
- 2 - Much faster speed while increasing and decreasing the lift.
- 3 - Step skip problems end.
- 4 - Do not get stuck when working.
- 5 - No expansion due to thicker pipe.
- 6 - Stainler chrome-plated shaft.
- 7 - Honed, H8 tolerant pipe.
- 8 - Robust and powerful design.

Sistemde : Döner sistem dökümleri, 2 adet sabitleme lift'i, 2 adet amortisör, rot kolu, rot başı, hortum ve rekorlar bulunmaktadır.

System : Steering axles castings, 2 locking cylinders , 2 shock absorbers, tie rod, joint rod, hose and racors.

Bu sistemde, bağımsız döner dingil, tandem römorklarında arkadaki dingile uygulanır.

Dingil dönme hareketini traktörün dönüşüne göre sarhoş olarak ayarlar.

En uygun maliyetli ve sorunsuz olarak tavsiye edilen sistemdir.

Bu sistemde, dingil üzerindeki lifter tek yönlüdür.

Bu lifter sadece geriye gidişlerde sabitlemede kullanılır.

On the Self-Steering axle system, the axle with the self-steering components is mounted on the back of the tandem/trailer.

This axle will automatically steer to the requested direction by castor action on front drive.

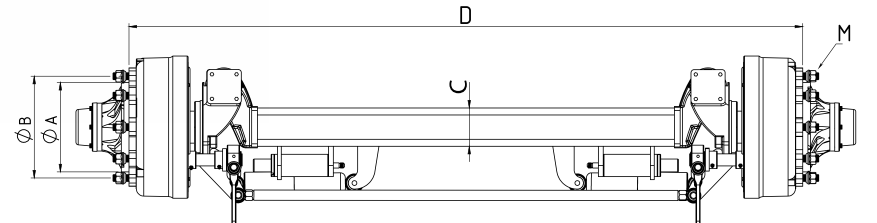

This system is recommended to extend the life of the tires since there will be a lower friction on the tyre.

It's easy to assemble and it's the most economical version in the steering axle category.

The system has to be locked hydraulically before reversing.

118089	140	420x200	33213/218248	13.000	12.000	10xM22	280	335

Sistemde : Döner sistem dökümleri, 2 adet sabitleme lift'i, 2 adet amortisör, rot kolu, rot başı, hortum ve rekorlar bulunmaktadır.

System : Steering axles castings, 2 locking cylinders , 2 shock absorbers, tie rod, joint rod, hose and racors.

Bu sistemde, bağımsız döner dingil, tandem römorklarında arkadaki dingile uygulanır.

Dingil dönme hareketini traktörün dönüşüne göre sarhoş olarak ayarlar.

En uygun maliyetli ve sorunsuz olarak tavsiye edilen sistemdir.

Bu sistemde, dingil üzerindeki lifter tek yönlüdür.

Bu lifter sadece geriye gidişlerde sabitlemede kullanılır.

On the Self-Steering axle system, the axle with the self-steering components is mounted on the back of the tandem/trailer.

This axle will automatically steer to the requested direction by castor action on front drive.

This system is recommended to extend the life of the tires since there will be a lower friction on the tyre.

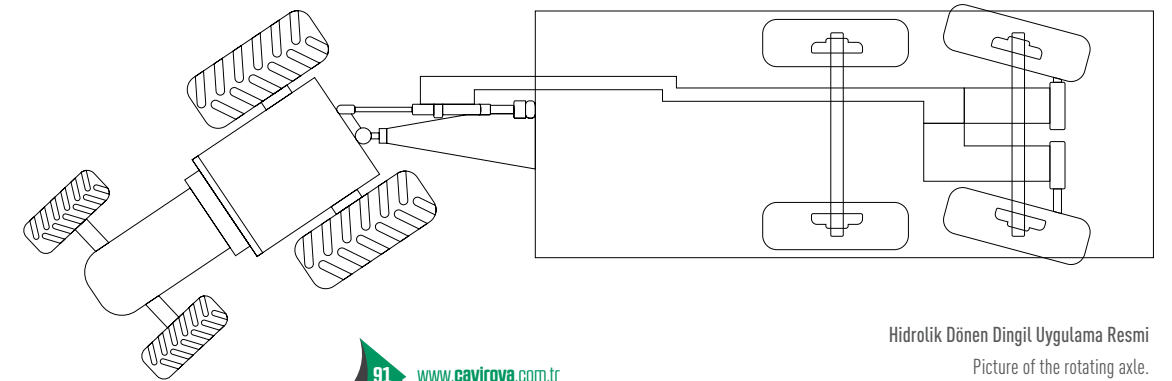

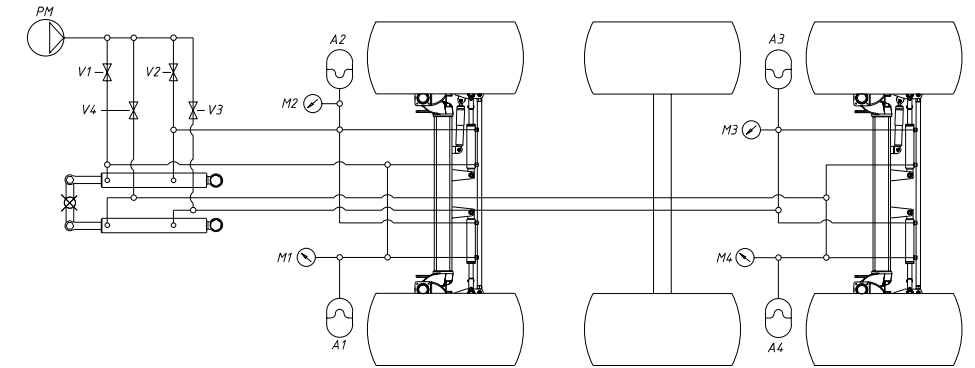

It's easy to assemble and it's the most economical version in the steering axle category.

The system has to be locked hydraulically before reversing.

A1, A2, A3, A4	Akümülatör / Accumulator
M1, M2, M3, M4	Manometre / Manometer
V1, V2, V3, V4	Küresel Vana / Globe Valve
PM	El Pompası / Hand Pump
	Yön Lifti / Direction Cylinder

Bu sistemde, hidrolik döner dingil sistemi hareketini römorkun önündeki ok başına bağlanan yön liftinden alır. 2 dingilli römorklarda arkadaki dingile, 3 dingilli römorklarda en ön ve en arkadaki dingile uygulanır.

On the hydraulic steering axle system the axle gets its motion from the direction cylinder mounted to the towing eye. On tandem system the hydraulic steering axle has to be mounted on the rear and on Tridem trailer systems the front and rear axles has to be a hydraulic steering axle.

Mekanik Döner Dingil Sistemi - 3 Ton
Mechanic Steering Axle System

Dingil Hariç / Without Axle

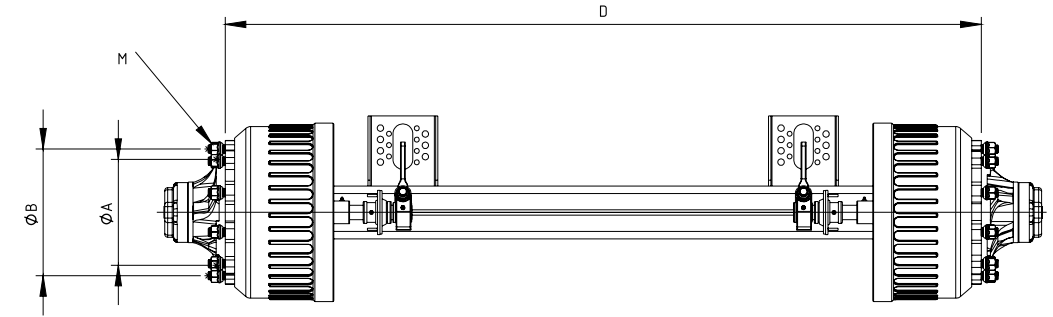

Sistemde : Döner dingil dökümleri, oynar başlık, rot kolu, rot başı, yön bağlantı demiri bulunmaktadır. Mekanik döner dingil kullanılan römorklarda döner tabla kullanılmasına gerek yoktur. Mekanik döner dingil hareketini traktörden alır.

System: Steering axle castings, moveable heads, tie rod, joint rod. There is no need to use a turntable on a mechanical system. The Mechanical rotating axle system takes its motion directly from the tractor.

PARABOLİK ve ÇOK KATLI MAKAS SÜSPANSİYON GRUBU

Tarım römorku üreticileri ve kullanıcıların tüm ihtiyaçlarını karşılayan mekanik süspansiyon grubu, her türlü tonaj ve ölçüye cevap verecek şekilde üretilmektedir. Yüksek kalitedeki set parçaları dayanıklı ve kolay montaj avantajıyla uzun ömürlü kullanım için idealdir. Süspansiyon takımı tüm parçaları ile beraber set halinde teslim edilmektedir. İstenirse opsiyonel olarak dingiller ile beraber montajlı olarak verilebilir. (Tekli, Tandem, Tridem)

Süspansiyon setinde olan parçalar:

- Ayarlı ve sabit bubi kolları, vidaları ve destekleri ile beraber.
- Makas bağlantı plakaları, U bağlantılar ve somunları ile beraber.
- Sac süspansiyon parçaları ve pernolar.

Montajda dikkat edilmesi gerekenler:

- Dingillerin sıralaması ve yönü doğru yapılmalı, merkezden uzaklığı eşit olmalıdır.
- Süspansiyonun yönü montaj resimlerinde belirtilen şekilde olmalıdır.
- Kaynak operasyonları dikkatli ve yeterli uygunlukta yapılmalı.
- Süspansiyondaki bütün sıkma ve ayarlar römork üzerinde yapılmalıdır.

Arazi şartları, fazla dengesiz yüklemeler, aşırı orandaki frenlemeler gibi nedenlerden dolayı oluşabilecek burkulma ve zorlamalar montajın doğru yapılmasını gerekli kılar. Montajdaki hatalar lastiklerin ve balataların çabuk aşınmasına yol açabilir. Araç üreticisi montajdaki hatalardan doğabilecek zararlardan daima sorumludur.

PARABOLIC AND MULTI SHEET SPRING SYSTEMS

The mechanical suspension group, which meets all the needs of agricultural trailer manufacturers and users, is produced to respond to all kinds of tonnage and measurement. The high-quality set pieces are ideal for long-life use due to their durability and easy mounting. The suspension kit is delivered as a set with all the parts. Optionally, it can also be installed as an assembly with axles. (Single, Tandem, Tridem)

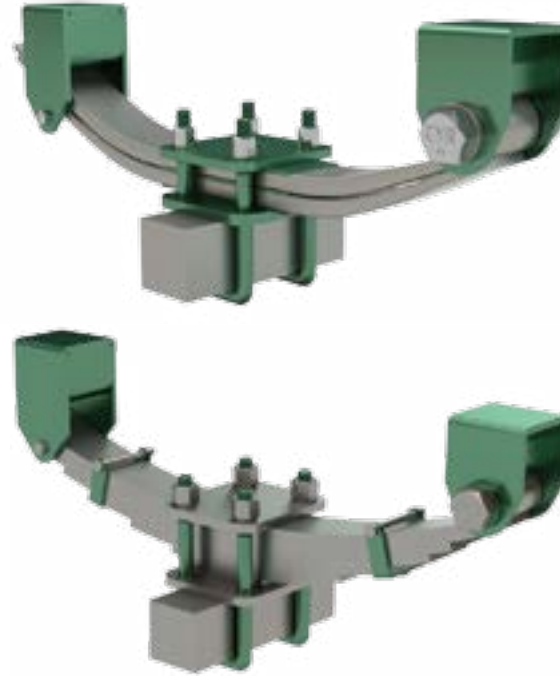

Parts in suspension set:

- Attent with fixed and tapered arms, screws and supports.
- Connection plates, U-connections and nuts.
- Sheet suspension pieces and pins.

Things to watch out for during installation:

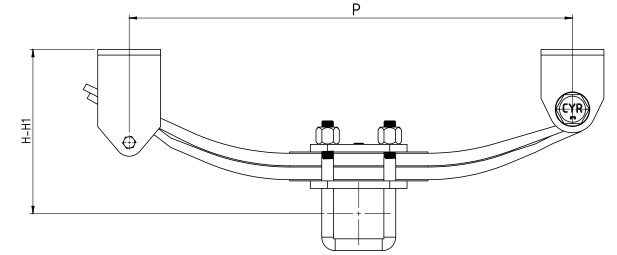

- The alignment of the wheels and the direction should be done correctly,the distance from the center should be equal.
- The direction of suspension should be as specified in the assembly drawings.
- Welding operations must be done with caution and adequacy.
- All tightening and adjustment of the suspension must be done on the trailer.

It is essential that the installation of the suspension system is done properly due to forcing and bending that might happen with overload, unbalanced load, excessive braking and land conditions. Faults in the assembly can lead to premature wear of tires and brakes. The vehicle manufacturer is always responsible for damages caused by faults in installation.

Hidrolik Süspansiyonlu Makaslı Dingil Sistemi
Hydraulic Suspension Axle System / With Leaf Spring

Dingil Hariç / Without Axle

Römork şasisinin performansı, süspansiyonlarının kaliteli olmasına bağlıdır. Hidrolik süspansiyon sistemi tüm arazi şartlarında römorkun dayanımını ve dengesini sağlaması için üretilmiştir. Hidrolik süspansiyon tarım sektöründe nakliyatla karşılaşılan problemleri gidermek amacıyla tasarlanmış olup, tarım römorklarında dingillerin maruz kaldığı büyük darbelere karşı güvenli sürüşü ve yol tutuş kabiliyeti sağlar.

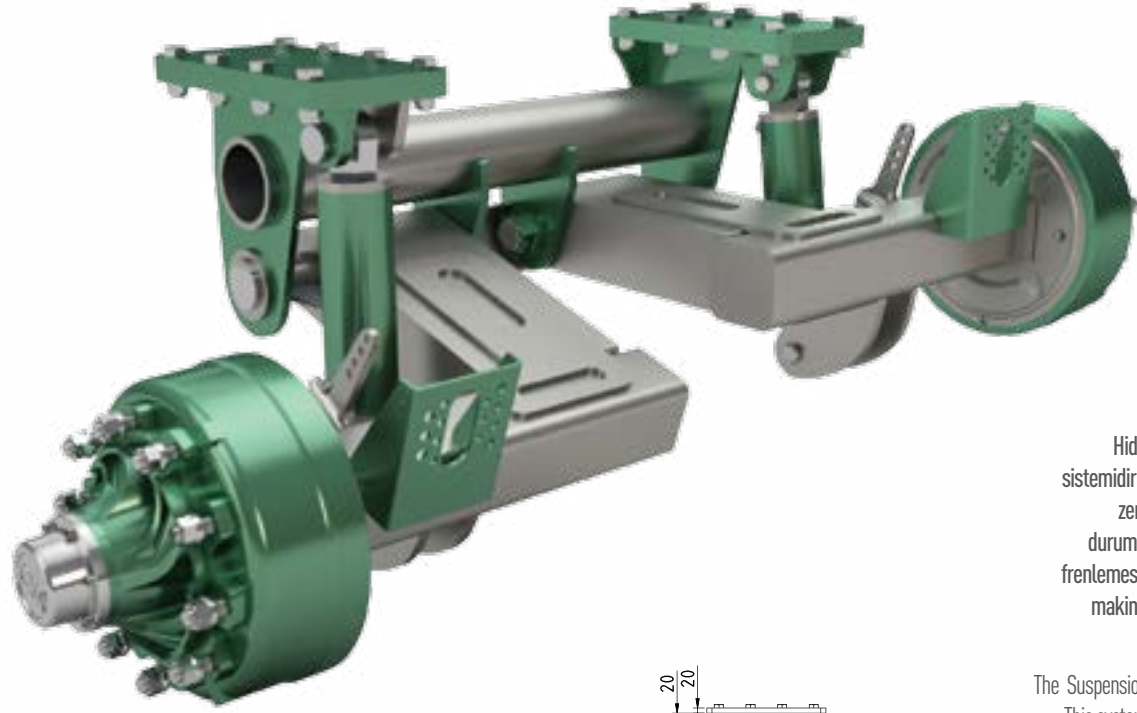

The performance of trailer chassis depends on the quality of suspensions. Hydraulic suspension system is produced in order to provide resistance of trailer and balance in all territory circumstances. Hydraulic suspension is designed in order to solve the problem of transport in agriculture sector. Axles are exposed to big impacts in agriculture trailers and hydraulic suspension provides secure drive and road-holding ability.

Hidrolik Süspansiyonlu Dingil Seti - Bağımsız
Hydraulic Suspension Axle System / Independent
Dingil Hariç / Without Axle.

Hidrolik süspansiyonun bağımsız çalışan sistemidir. Her türlü arazi şartlarında lastiklerin zemine tutunmasını sağlar. Engebeli yol durumlarında aracın dengesini ve dingillerin frenlemesini garanti etmektedir. Özellikle tarım makineleri ve remorkları için çok uygundur.

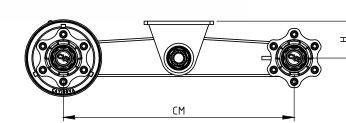

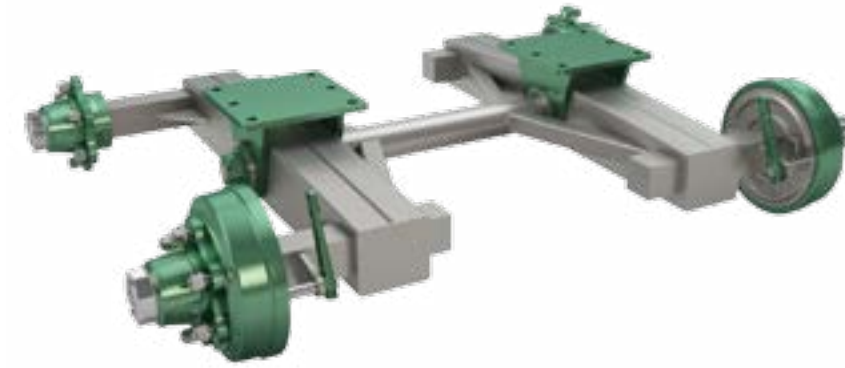

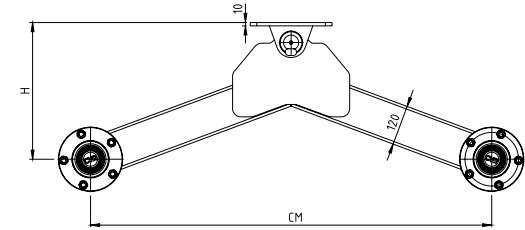

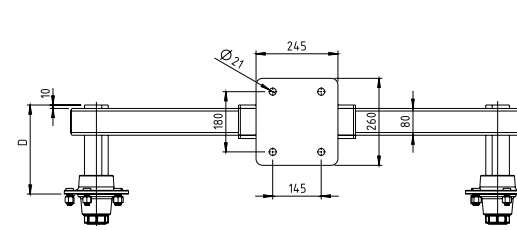

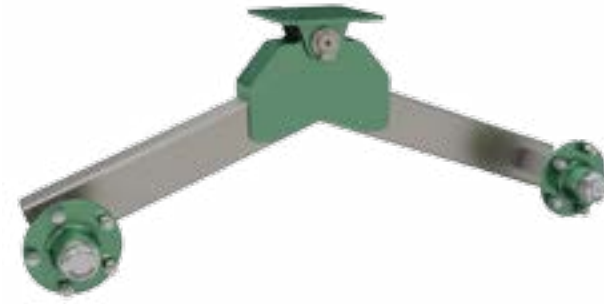

The Suspensions works independently on this system. This system assures extra stability and balance on rough terrain and on uneven ground. It is especially recommended to use this system on larger scale agricultural trailers and farm machines.
